Our company, with a team of 20 years of experience in the automation works of Industrial Facilities, we act by knowing the importance of the details in order to get the most error-free software possible to the field and the commissioning phase.

We produce turnkey process automations by producing PLC Software, RTU Software, DCS Software, SCADA Software, HMI Software in accordance with the process specifications. As PLC and RTU; We produce software for many brands of products such as SIEMENS, SCHNEIDER, ABB, ALLEN BRADLEY, WAGO, PHOENIX, MIKRODEV.

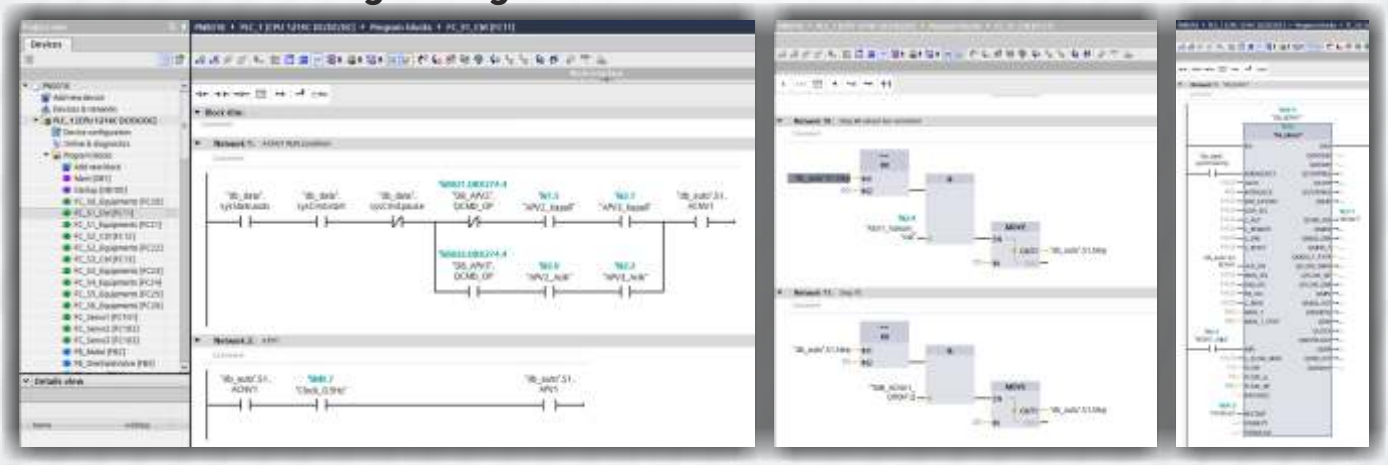

In SCADA Systems; By using software licenses such as WINCC, MOVICON, WONDERWARE, PHOENIX, WiewPlus, we develop SCADA software suitable for processes.

SCADA reporting and alarm systems we integrate the system with the process we limit the number of failures and downtimes, increasing productivity.

The installed systems can be designed for remote monitoring and intervention. Systems can be monitored and intervened remotely via mobile phone, tablet or remote PC.

Communications are carried out over GPRS / GSM 4G or Radio Modems when the facility is located away from the SCADA system. Communications can be provided using IEC 101, 104, DNP 3.0, Modbus RTU, Modbus / TCPIP protocols.
