L.V. PANELS

Our panels are produced in accordance with TSE EN 60439-1,2 standard.

L.V. Panels

Low Voltage Panels are designed by our company in accordance with the project and specification requirements and manufactured with our registered trademark YÖNPANEL YÖNTEM ELEKTROMEKANİK

At Low Voltage level L.V. Distribution Panels, L.V. Compensation Panels, MCC Panels, PLC Panels, Lighting Panels, Control-Relay Panels, Field Panels are produced. Our panels can be produced in accordance with internal or external conditions.

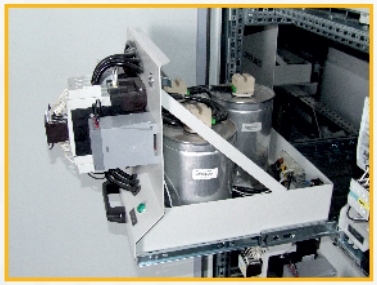

Before our panel manufacturing begins, mechanical projects are created in DWG format and all details are solved here. Our electrical projects are drawn with the E-Plan program and production is started with error-free projects.

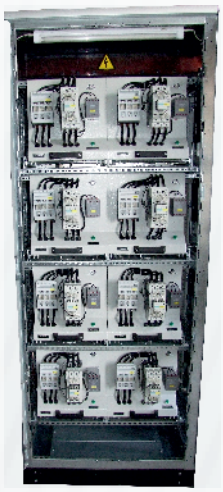

As the product of our 20 years of field assembly and construction experience, we attach great importance to the user-friendliness of our panels and to provide easy assembly and connection.

Technical Characteristics

Operating Voltage	690 V	Rated Current	Up to4000 A
Insulation Voltage	1000 V	Rated short circuit withstand current	Up to 100 kA
Impact Withstand Voltage	8000 V	Rated Short Circuit Peak Current	Up to 205 kA
Frequency	50 Hz.	Protection Class	IP 54IP 66

Compensation Panels

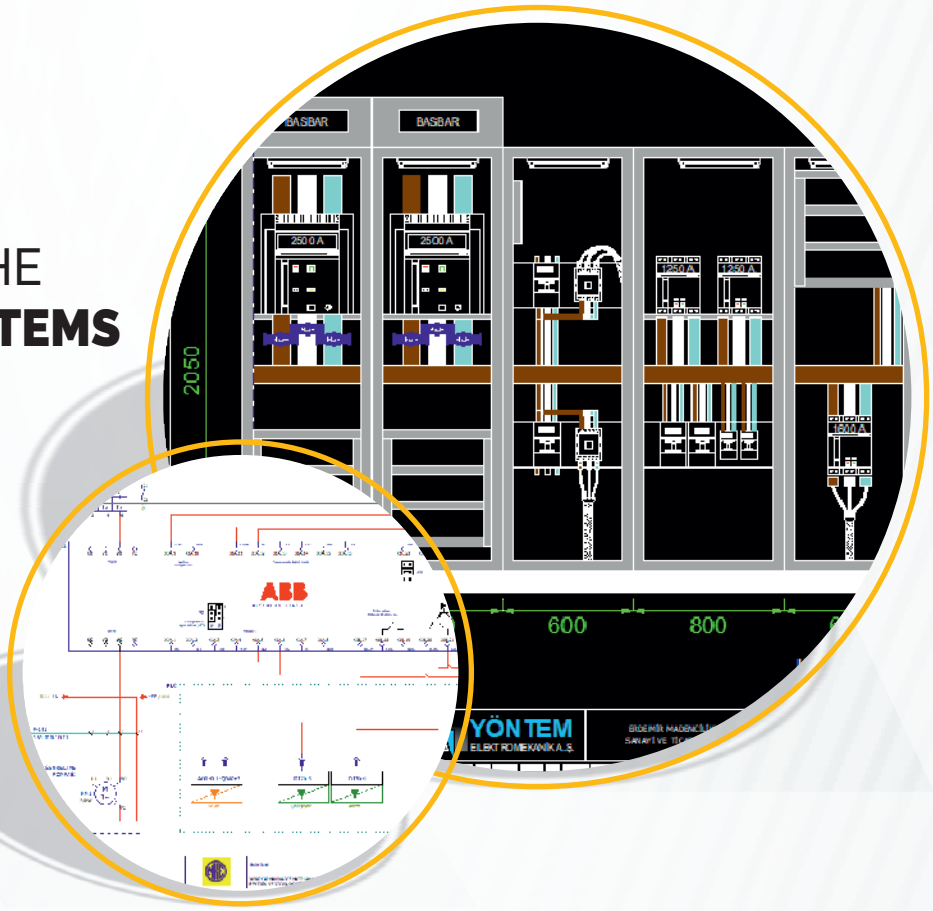

PRATICAL AND INNOVATIVE SOLUTIONS FOR THE LOW VOLTAGE SYSTEMS

- Detailed Analysis
- Error-free Projecting
- User-Friendly Design
- Fast Production
- Test According to Standards
- Sturdy Assembly
- Smooth Commissioning
